OUR WORLD IS FOLLOWING THE PRINCIPLE OF CAUSE AND EFFECT.

Very often we find ourselves being touched unexpectedly by effects because we did not interpret the cause before-hand. Wouldn't it be awesome if something would help you to be notified of causes prior to the effect?

We use this knowledge of cause and effect to interpret our everyday Data in order to learn from the past. Like this we will optimize future decisions and events.

BECAUSE IF WE CAN INFLUENCE A CAUSE, WE CAN ACHIEVE AN EFFECT.
